AEROPLANE BEATS TRAIN

CURTISS MAKES SIXTY-MILE FLIGHT OVER LAKE ERIE.

CLEVELAND, September 2.—Racing with a fast Lake Shore special mail train, Glenn H. Curtiss, the Hammondport, N. Y., aviator, yesterday drove his biplane over the water from Cedar Point to Euclid Beach, an airline distance of sixty miles, completing a 120-mile round-trip flight, begun Wednesday, and establishing an unquestionable world's record for over-the-water flights. Incidentally he beat the train into Cleveland a full seven minutes.

Encountering contrary air currents, Curtiss was unable to maintain a high rate of speed, taking one hour and forty-two minutes for the flight. The actual distance traversed, estimated at the United States hydrographic office, was sixty-four and three-quarter miles. At 2:47 o'clock yesterday afternoon Curtiss ascended over Lake Erie from the sandy beach of Cedar Point. At 4:12 p.m. the aeroplane, flying at a nineteen-mile breeze all the way, passed the center of Cleveland and reached Euclid Beach at exactly 4:29 p.m.

Great Throng Goes to Finish.
A great crowd of 50,000 people gathered on the beach, surrounded him and insisted on shaking his hands, but police rescued him and took him to a telephone, over which he greeted Mrs. Curtiss, who had just arrived at her hotel. She was on the train which Curtiss descended.

Curtiss encountered considerable difficulty in navigating the treacherous currents above Lake Erie. The first ten miles were covered in thirteen minutes, but after that the breeze, which had been steady, grew gusty, necessitating many dips and maneuvers that the aviator must maintain his balance.

Off Cleveland harbor the velocity of the breeze had diminished to twelve miles an hour, but it was unsteady, and the 100,000 people lining the lake front and perched on the top of every available building had an opportunity of judging the difficulty of air navigation under unfavorable conditions.

Last night the aviator, his wife and the members of his party were entertained at a banquet given by the Cleveland Aero Club.

SMITH PUT IN THE FIELD

GEORGIA'S FORMER GOVERNOR INDORSED FOR PRESIDENT.

ATLANTA, Ga., September 2.—Former Gov. Hoke Smith "came back" politically yesterday, when he was nominated for Governor of Georgia and indorsed for the presidency of the United States in 1912 by the state democratic convention here. He was nominated for governor with 233 votes against seventy-eight for Joseph M. Brown, the present governor, the balancing being under the county unit system. The resolution indorsing Mr. Smith for the presidency was adopted unanimously.

Some disorder attended the presentation of Gov. Brown's name as a candidate for the gubernatorial nomination. Enough of the speech already had been made, however, to place the governor's name in nomination.

Tariff Law Denounced.

The platform, which was unanimously adopted, denounced and condemned the Payne-Aldrich tariff law, together with the republican administration, for its "complete breach of faith with the American people." The platform declares the republican administration revised the tariff upward instead of downward, as promised, and increased burdens were imposed.

In part, the platform declares: "The monetary and financial policy has been practiced on the American people that no further demonstration is needed of the fact that the republican party can never be trusted to give relief from tariff burdens."

Disfranchisement Indorsed.
The disfranchisement of the ignorant and purchasable vote is indorsed and one plank urges the same protection for foreign and domestic corporations as is accorded the individual. A law prohibiting lobbying and the elimination of the corporations from politics is strongly urged. A complete revision of railroad rates to and from the ports is indorsed, and the platform unqualifiedly declares that the state possessing an extensive ocean front, with four excellent ports, should receive the benefits of such a condition and declares that the "arbitrary and excessive rates now exacted by the carriers are unjust and deprive the people of Georgia of their natural advantages."

The state railroad commission is called upon to effect a revision on a just basis.

Girls' Jaunty Felt Hats
Prices, \$1.75, \$1.95, \$2.50

And very jaunty and happy-go-lucky the little girls look in these pretty yet simple felt hats. Many of them are trimmed with bright Persian scarves, some with scarf ends; others have rosettes and bows of satin; some have the Persian scarves and velvet combined. The shapes are in many variations of the mushroom, with very decided drooping brims. Some have puffed tam o' shanter crowns. A number of those at \$1.95 are in the roll-brim sailor shape. With these exceptions the chief price difference lies in the quality of felt and trimming materials.—Second Floor—Millinery.
